Declaration of Conformity

Material: 100% poliamide

Material width: 290 cm (+/- 5 cm)

Made in Poland

The material is certified according to:

PN-EN ISO 13934-1:2013-07.

With result 300N for 5cm.

Whole width 290cm:5cm = 58

300N * 58 = 17400N = about 1740 kgs

Static strength: min. 1740 kgs.

In practice it can be used by 2 people with a total weight of max 174kg (safety factory 10:1).

Max use 3 years/300 hours.

Fast slides and drops may provoke burn

Store in a dry place at room temperature, away from sharp and rough objects.

Wash at 40 Celsius degrees (without accessories: carabiners, climbing eight or swivel).

Important Tips:

Be careful not to damage the material during practice and rigging. Before each use check, if the material has no holes. Material with severe damage is not suitable for use. Practice without shoes, strips, jewellery and other sharp objects.
